## **Program Description**

The WEM training program offers an extensive array of training opportunities for emergency managers, law enforcement, fire, EMS, public health, local officials and volunteer organizations. Wisconsin's Hazardous Materials courses are comprehensive and exceed national training standards in the field of Hazmat response training. Standards for the Hazmat training program are found both in CFR 29 and NFPA standard # 472/1072. As of October 2014, all classes will be based on the NFPA 472 and tied directly to Job Performance Requirements (JPRs). JPRs are vital to the successful qualifying of an individual to a Professional Qualifications project standard. JPRs must be specific to indicate the attributes of successful performance on the job. This grant supports Operations Level for their Firefighter 1 Certification Program and Technician level training delivered by WTCS.

Applications must be submitted through the Egrants online grants management system. If you have never used Egrants before, you will need to register for access to the system. To register online, go to <http://register.wisconsin.gov/AccountManagement/> and complete the 'self-registration' process.

Authorization to access Egrants can take several days depending on registration activity. The WEM help desk is open Monday-Friday 7:30am-4pm if you need assistance. (Please note: If you register outside of these hours, access may not be approved until the next business day.) Once your Egrants access has been approved, you may begin your online grant application.
